# Invitation

## Slide & OTS Winter Sustainability Breakfast

Sustainability has never been more relevant as we all face up to the challenges of declining resources and climate change. We must all play our part in the drive towards Net Zero and the ambitions of COP26 - or snowy winters could slowly disappear.

### But what can WE do?

Attendees at Slide & OTS Winter are invited to find out more at this Sustainability Breakfast, sponsored by Rab who will give some practical guidance on their move to being a Carbon Neutral Company.

POW (Protect Our Winters) will provide a wider perspective - and some ways we can all help.

**08:00 - 09:00 Wednesday 19 January 2022 - Newport Suite, Telford International Centre**

### Programme & Speakers

08:00 - 08:15	Breakfast and networking
08:15 - 08:20	Welcome & Intro – <b>Andrew Denton</b> (CEO, Outdoor Industries Association)
08:20 - 08:35	<b>Debbie Read</b> , CSR Manager, Rab <b>Our Ascent to Net Zero</b> <i>At Rab, we have a heritage of doing the right thing and being accountable for the activities we undertake. It's just part of our DNA. Please join us to share our ambition of achieving Net Zero Carbon Emissions by 2030. We will share some activities already underway, and what it means to be declared a Climate Neutral Company. We may not have all the answers, but we are taking actions today to protect our environment for tomorrow.</i>
08:35 - 08:50	<b>Adam Hall</b> , Trustee, Protect Our Winters UK (POW) <b>The stark climate reality - and some practical solutions</b> <i>As enthusiastic outdoor people, we harness our connection to wild places as a force for positive change. We're a loud, energetic, and insistent outdoor community that influences climate policy to protect the places we love. We see climate breakdown happening in our playgrounds, and we're communicating that message to policymakers.</i>
08:50 - 09:00	Q&A

Register to attend by emailing [leemo@raremanagement.co.uk](mailto:leemo@raremanagement.co.uk)

Please note that attendance will be limited and it will be on a first come first served basis. We will e-mail you by return to confirm either way.

We are an independent, family-run snowsports company based in London. Our debut product, VENOM, is a silicone edge & sidewall protector designed for use on snowboards in transit. VENOM is 100% made in the UK. We started developing VENOM over 2 years ago after a favourite, limited edition board was severely damaged during airline transit despite our packing precautions. This sparked the idea to create a robust product that withstands the rigors of travel and prevent others from the same misfortune. We currently ship B2C internationally and have partnered in the US/Canada with Amazon for fulfilment.
