

**PRODUCT**

**EXO 100 DRY JACKET MENS & WOMENS**

**BRAND**

**PATIZON**

**STAND 238**

A unique down jacket combining multiple types of insulation with two distinct construction methods. At its core is an anatomically shaped down jacket, enhanced with several panels of synthetic insulation to achieve a perfectly sculpted fit. This ultralight down layer is then fully covered with a 2.5l CRAFTTEVO shell, dramatically increasing resistance to harsh weather and giving a cleaner, more streamlined look.

**PRODUCT**

**REDSTONE 185 LONG SLEEVE CREW**

**BRAND**

**ARTILECT**

**STAND 210**

**Heavyweight warmth in a lightweight package.**

**With the combination of 19 micron merino wool and a 20D performance nylon carrier, this 185g Nuyarn fabric punches well above its weight, literally! Built to give performance comfort for everyday use, the Redstone 185 LS Crew provides greater levels of warmth compared to its heavier traditional ringspun counterparts, easily outperforming them on dry time, durability, stretch and recovery and overall comfort.**

**BEAR CANYON HOODIE**

**BRAND**

**ARTILECT**

**STAND 210**

The Bear Canyon Hoodie pairs classic zip-up versatility with advanced Nuyarn® Merino performance, delivering lasting warmth, stretch, and durability. This exclusive RWS 230g Nuyarn fabric is constructed using a 21-micron merino face with a nylon inner that provides lofted warmth, breathability and stretch, while efficiently transferring moisture from your baselayer.

Crafted with embroidered logos and a standard fit, the Bear Canyon Hoodie will be your go-to midlayer for all occasions.

**THERALITE VERSA REVERSIBLE JACKET**

**BRAND**

**BERGHAUS**

**STAND 96**

The Theralite Versa Jacket represents the next evolution of fast-moving mountain insulation. For those who count every gram but refuse to compromise on performance, this jacket delivers exceptional warmth, breathability, and adaptability in an extremely compact package. At its core is Hydroloft® Elite 40 g/m<sup>2</sup> synthetic insulation, engineered to retain warmth even when damp and to dry rapidly, critical for unpredictable mountain conditions. What sets the Theralite Versa apart is its fully reversible construction. One side offers a windproof outer to shield you from biting ridgelines and exposed terrain. Flip it, and the more permeable face fabric turbocharges breathability during high-output ascents.
