

**PRODUCT**  
**BIGLINE JACKET**  
**BRAND**  
**RAB**  
**STAND 140**

**The Bigline Jacket delivers uncompromising protection for ambitious freeride skiing. Built with 3-layer Pertex® Shield (20,000mm waterproof, fluorocarbon-free DWR), it features a relaxed, layerable fit with extended length for deep powder days. Technical features include integrated RECCO® reflector, helmet-compatible hood, articulated sleeves for unrestricted movement, 2-way front and pit zips, and a removable powder skirt with stretch cuffs to seal out spindrift. Together with the Bigline Pants, this jacket is designed for midwinter conditions where mobility, ventilation, and weather protection are essential.**

**PRODUCT**  
**SPEED III JACKET**  
**BRAND**  
**DARE 2B**  
**STAND 230**

**This jacket is engineered to elevate performance. It incorporates our heat-sealed baffled panels with our membrane technology, delivering superior insulation and enhanced weather protection. This technology keeps you warmer and drier in all conditions without added bulk, allowing for greater freedom of movement. The heat seal fabric eliminates stitching holes and reinforces seam integrity, resulting in improved durability and a sleek look, whilst ARED 35k/35k offers exceptional weather defence.**

**PRODUCT**

**WOMEN'S ALTITUDE GUARD 3 LAYER SHELL JACKET**

**BRAND**

**DARE 2B**

**STAND 230**

Our new 3-layer jacket is fully waterproof, windproof and highly breathable thanks to our ARED 30/30 technology. Durable enough to handle the demands of the mountain, yet comfortable for all-day wear. Designed with movement in mind, it features stretch material that gives you freedom to move. Underarm ventilation regulates temperature, keeping you fresh through long climbs and fast descents. The removable snow skirt allows you to pair it effortlessly with layers for protection on and off slopes.
